MEMORANDUM FOR SENIOR CHAPLAINS AND RELIGIOUS PROGRAM SPECIALISTS

Subj: STRATEGIC LEADERSHIP SYMPOSIUM 2004

1. The Strategic Leadership Symposium is almost upon us. It promises to be a tremendous opportunity for us to continue building a strong foundation for transformational leaders in our Chaplain Corps and RP rating. The symposium will offer insightful briefs on current military engagements, future Navy strategies, and the importance of telling our chaplains' stories in an era of transformation. There will also be ample opportunities for us to dialogue and develop plans for achieving transformational goals in support of the sea services.
2. As you finalize your attendance plans, you are directed to the Strategic Leadership Symposium Main Page on the Chaplain Corps website. There you will find the agenda for the symposium, working group assignments and other information that will assist you. Each member of the symposium has been assigned to one of these working groups. Based on your group's topic, read-ahead articles and information will be posted. It is important that all attendees review these materials prior to the symposium.
3. While we anticipate full workdays, time has been built into the schedule to provide time for fellowship, recreation, and worship. Experiences such as these offer us the opportunity to renew friendships, build collegial relationships, and encourage one another in our calling. Please keep this symposium in your prayers as we labor together for the future of our Navy, Marine Corps, and Coast Guard.

A handwritten signature in black ink, reading "Tierian Cash", is positioned above the typed name.
