

Sears has offered one free 8 X 10 family portrait to all members of the military, police officers and firefighters. Simply show your identification, and you and your immediate family will be entitled to a complimentary portrait; no additional fees will be added. Contact your local Sears portrait studio for more specific details. There is one addition to the e-mail, the Sears Portrait Studios requests that folks call for an appointment and not just show up.

AR-PERSCOM Personnel, This has been confirmed. All Sears Portrait Studios nationwide are offering this service for an indefinite period. The person I spoke with at Sears (Ken, South County) stated it was preferred that the military members wear their uniform for the portrait. Apparently, they have an American Flag background that they use for this portrait. If you elect to take advantage of this very nice offer, remember it is at their discretion. Accordingly, you do not have a lot of options on what you will have in the portrait. It is a pretty cut and dried deal.
